

# ONE CHARIOT

Epic Adventures

Whether you are taking your Chariot around the block or around the continent, you travel knowing that you can rely on your equipment. With ample storage space and high quality, reliable construction, Chariot Carriers are the preferred choice of long distance travelers.

With nothing more than a passion for running, the clothes on their backs and two Cougar 1 carriers loaded with supplies, three former track teammates Andrew Wahila, Matthew Durkin and Ken Stannard took 116 days to complete a 2,800 mile unsupported run across the USA from Tybee Island, GA to La Jolla, CA in February 2008.

"These two joggers were our homes, our vehicle and our life for four months while completing this journey." – Andrew Wahila
